A Ceremony As Unique As These Mountains

Just as your love is like no other, you can have a wedding ceremony that is completely unique to you as a couple, that is as stunning as the beautiful landscape surrounding your wedding venue. You deserve a wedding officiant who captures the heart of your love story, and who will make your time at your altar everything you've dreamed of.

A Luminous Ceremony includes the following:

- A personalized ceremony in line with your beliefs
- Your love story in your words
- Full control of the wording, rituals and tone of your ceremony – no cookie cutter scripts or unwanted surprises
- Rituals and elements that illustrate what matters to you as a couple
- An experience that makes your loved ones feel like more than spectators in an audience
- The stunning mountain scenery tied into the wording and elements of your ceremony (e.g., the unity ceremony)
- An officiant with a decade of experience, committed to supporting you leading up to and on your big day – with high class, drama-free customer care, professionalism and humor
- A keepsake copy of your ceremony to look back on over the years
- Legalizing and mailing of your marriage license

What matters most is that the ceremony feels true to who you are, and that each element highlights what is meaningful to you as you begin this new chapter in your life.
